

The Dovedale Suite offers lots of great features in a compact space. A morning kitchen compliments the combination sitting area/master bedroom suite. A standard privacy wall between the morning kitchen and bedroom can be easily removed to really open up the space. With privacy doors on both the bedroom and bathroom, this addition is a winner when it comes to adding space that looks like it was built with the original home. With the dry version of our FlexAssist™ Bathroom as standard, smart use of this space allows a washer/dryer combination unit to easily be included for use and added convenience.
